The unexpected and irresistible rush of the vast masses of water through the unrrow vailey, before which houses, bridges, locomotives and all the handlwork of men melted away like frost-work, impresses us anew with the might of the elements when the Creator withdraws His restraining hund and permits them to ravage and destroy. The Age of Paper.

We live in paper houses, wear paper elothing and sit on paper enshions in paper cars, rolling on paper wheels. We do a paper business over a paper counter, buying paper goods, paying with paper money or charging them up in paper books, and deal in paper stocks on paper margins. We row races in paper boats for paper prizes. We go to paper theatres, where paper netors play to paper audiences.

As the age develops the coming man will be more deeply enmeshed in the paper net. He will wake in the morning and creep from under his paper clothing on his paper bed, and put on his paper dressing gown and slippers. He will walk over paper carpets down paper stairs, and, seating himself in a paper chair, will read the paper news In the morning paper. A paper bell will eall him to breakfast, cooked in a paper oven served on paper dishes, lald on a paper cloth on a paper table. He will wipe his lips with a paper napkin and 'having put on his paper shoes, paper hat and paper cont and taken his paper cane, he will walk on a paper pavement or ride in a paper earriage to his paper office. He will organize paper enterprises and make paper profits. He will go to Europe on paper steamships and navigate the air in paper balloons. He will smoke paper tobacco in a paper pipe, lighted with a paper match. He will write with a paper pencil, whittle paper sticks with a paper knife, go fishing with a paper fishing rod, a paper line and a paper hook, and put his eatch in a paper busket. He will go shooting with a paper gun, loaded with paper cartridges and defend his country in paper forts with paper cannon and paper bombs.

Having lived his paper life and achieved a paper fame and paper wealth, he will retire to paper leisure and die ln paper peace. There will be a paper funeral, at which the monrners, dressed in p per crape, will wipe their eyes with paper handkerchiefs and a paper preacher will preach a paper sermon in a paper pulpit from a paper text. He will lie in a paper coffin wrapped in a paper shroud his name will be engraved on a paper plate, and a paper hearse, adorned with paper plumes, will earry him to a paper lined grave, over which will be raised a paper monument.-Paper World.

Here it a specimen of the Intelligence of an American citizen who was interrogated concerning alleged facts upon which a contest of an election was based:

"'Who was the republican candidate for eongress in this district?' was asked. Answer: 'I don't know,' 'Would you know the name if mentioned?" 'Yes, sir.' 'Was it Robert Ingersoll?' 'Yes, House, sir, dat's de man.' "Well, who was the democratic candidate?' 'I dou't know, sir.1 'Was it John Sherman?' 'Yes, sir, dat's de very man. 'Well, what is Congress?' 'I don't know sir.' 'Is it a man or woman?' 'I think it is a woman.' Stanford, - - - - Kentucky. What kind of a womau?' 'A black wo-

Very few people who sit down to n good brenkfast of "parter-house" steak could tell, were they asked, what part of n bullock this choice bit is cut from. The "parter-house" is that portion of the beef either side of the spine, beginning where the riles end, and extending along WM. FDAMS & SON, to where the hip bone begins. The tenhous. This is a narrow strip of succulent and tender flesh, extending along LEXINGTON, . - KY, and protecting the inner sides of the spinal column. Its high price-Is due to its choice quality, and the fact that even in the birgest bullock there are not above 10 to 12 pounds of temberlains.

> There is a "lady" in Irwin county, Ga. according to the newspaper man who wrote her up, who ins a novel way of, making her hens set. Whenever she gets ready to set a hen, it matters not whether the hen is ready or not, she eatches her, brenks one leg, puts eggs and hen in a nest and nails them up She says there is nothing like breaking one leg to make them hatch. By the time the hen hatches the leg is well and she is ready to care for the chicks. It FOR INSURANCE does not take much to make a "lady" in some parts of the country. The right to wenr petticoats is enough.

A discussion as to whether or not George Washington was immersed threatens to rage in the Paris Kentuckian-Citizen. Col. Craduock, the editor of that paper and the sole survivor of the Revolutionary war, declines to settle the matter by telling what he knows about it. The father of nothing but his country was an Episcopalian by profession, and not much of anything by practice. Blood Diseases are cured by the persevering use of Ayer's Sarsaparilla.

Tile meilicine is an Alterative, and causes a radical change in the system. The process, in some cases, may not be quite so rapid as in others; but, with persistence, the result is certain. Read these testimonials : -

"For two years I suffered from a se-vere pain in my right slife, and had other troubles caused by a torpid liver and dyspepsia. After giving several medicines a fair trial without a cure, I began to take Ayer's Sarasparills. I was greatly benefited by the first bottle, and after taking five bottles I was completely cured."—John W. Benson, 70 Lawrence st., Lowell, Mass.

Last May a large carbancle broke out on my arm. The usual remedies had no effect and I was confined to my bed for eight weeks. A friend induced me to try Ayer's Sursaparilla. Less than three bottles licated the sure. It all my experience with medicine, I never saw more

"I had a dry scaly humor for years, and suffered terribly; and, as my brother and sister were similarly afflicted. I presume the malady is hereditary. Last whiter, Dr. Tyron, (of Fernaudina, Fla.,) recommended me to take Ayer's Sarsuparilla, and continue it for a year. For five months I took it daily. I have not had a blemish upon my body for the last three months."—T. E. Wiley, 14d Chambers at., New York City.

"Last fall and winter I was troubled."

"Last fall and winter I was troubled with a dull, heavy pain in my side. I did not notice it much at first, but it gradually grew worse until it became almost unbearable. During the latter part of this time, illsorders of the stomach and liver increased my troubles. I began taking Ayer's Sarsaparilia, anil, after faithfully continuing the use of this medicine for some months, the pain disappeared and I was completely cured."—Mrs. Augusta A.
